Salt Danielle Ellison 2014-01-07 Penelope is a witch, part of a secret society protecting humans from demon attacks. But when she was a child, a demon killed her parents—and stole her magic. Since then, she’s been pretending to be something she’s not, using her sister’s magic to hide her own loss and prevent being sent away. When she’s finally given the chance to join the elite demon-hunting force, Penelope thinks that will finally change. With her sister’s help, she can squeeze through the tests and get access to the information she needs to find "her" demon. To take back what was stolen. Then she meets Carter. He’s cute, smart, and she can borrow his magic, too. He knows her secret—but he also has one of his own. He’s always been a problem child. And now, Penelope thinks, he’s far more complicated. Because Carter’s not telling her everything, and it’s starting to seem like the demons have their own agenda...and they’re far too interested in her.

It Doesn’t Have to Be Like this Margaret Legum 2003 This title is aimed at those of us who feel instinctively that there is something badly wrong with our global system of trade and finance, where money for its own sake is valued over jobs and people’s lives, but don’t know how to start suggesting alternatives. Stand Out Alison Hill 2016-08-31 Tools, tips and strategies to stop the cycle of ‘busy’ and start getting ahead Stand Out shows you how to stop working so much, and start achieving instead. Everyone is busy, but working harder to do more isn’t getting us anywhere. We’re overwhelmed, distracted and detached, and our greatest fear is that this will never change. This book is your guide to taking back your life. Through simple models, robust diagnostics and practical suggestions you’ll identify where you are now and how to implement real change. Explore how to move on from Check Out (the sense that you are just going through the motions), combat Burn Out (the feeling that you’re on a treadmill that is dialled too fast for your legs, brain and talents to keep pace with) and move through Freak Out (that overriding anxiety generated by knowing where you want to go but not getting any traction). Real-Life stories, anecdotes and ‘life hacks’ provide ideas you can implement immediately, while in-depth discussion of psychological theory explains the science behind the actions. The goal is not to find your One True Passion, but to identify what’s most important right now. When you know what to do, you can make your working day work for you. Stand Out helps you find the courage and optimism to live the life you crave, let go of the ‘shoulds’ and shows you how to prioritise what really matters.

It Doesn’t Have To Be Crazy at Work Jason Fried 2018-10-04 Jason Fried and David Heinemeier Hansson, the authors of the New York Times bestseller ReWork, are back with a manifesto to combat all your modern workplace worries and fears. The Sum of Us Heather McGhee 2021-03-26 LONGLISTED FOR THE NATIONAL BOOK AWARD ‘With intelligence and care (as well as with a trove of sometimes heartbreaking and sometimes heart-opening true stories) Heather McGhee shows us what racism has cost all of us’ - Elizabeth Gilbert Picked for the Financial Times Summer Books by Gillian Tett What would make a society drain its public swimming baths and fill them with concrete rather than opening them to everyone? Economics researcher Heather McGhee sets out across America to learn why white voters so often act against their own interests. Why do they block changes that would help them, and even destroy their own advantages, whenever people of colour also stand to benefit? Their tragedy is that they believe they can’t win unless somebody else loses. But this is a lie. McGhee marshals overwhelming economic evidence, and a profound well of empathy, to reveal the surprising truth: even racists lose out under white supremacy. And US racism is even more damaging than American power, McGhee shows, was bigoted lending policies that laid the ground for the 2008 financial crisis. There can be little prospect of tackling global climate change until America’s zero-sum delusions are defeated. The Sum of Us offers a priceless insight into the workings of prejudice, and a timely invitation to solidarity among all humans, ‘to piece together a new story of who we could be to one another’.

When Being Me Doesn’t Feel Like Enough - Kiki Rozema 2022-02-10

Our society is fraught with situations and challenges that make us feel like we don’t measure up. But girls are powerful, just because they are them. We face so much judgment from society, and from both the pressures and expectations that have been placed upon us, and the ones we place on ourselves. This handbook is meant for all girls, especially between the ages of eight and sixteen, to help teach them how to reclaim their self-esteem in the face of life’s many challenges. Through personal stories, hands-on exercises, and practical advice, Rozema provides her readers with a tool that can help them move past shame and feelings. When kids are confused or fearful, they often shut down. This book is a tool that helps them open up about the unknown and find their voices again.

Mental Illness Mi Doesn’T Look Like Me - Susie L. Landowne-Clarke 2017-07-31

This is a story of intimate warfare among rivals, where friend and foe confront the spiritual suffocation of a woman suffering from complex mental illnesses and disorders. She was desperate to be unchained from layers and layers of emotional tyranny but couldn’t bring herself to make a complete mental break from her mother. When her mother said that she didn’t belong... Brought up in the savage captivity of a modeling career, she’s consumed with being a dutiful wife to her husband, Ryan, and mother to their two children. But as a child, she yearned for rescue. Now she struggles every day to function as an adult in the confines of normal society. Left with only foggy recollection of her childhood, she’s consumed with being a dutiful wife to her husband, Ryan, and mother to their two children. But an unexpected twist of events returns her to that long-forgotten place in the woods. Soon, Mari is greeted with reminders of a past life, the clarified memories only inviting a new level of strangeness into her inner chaos.

The clarified memories of a past life, the clarified memories only inviting a new level of strangeness into her inner chaos. The author experienced a supernatural spiritual healing that caused her to be reborn in the flesh. This author’s story is inspiring and enriching, with a spellbinding journey that she hopes initiates inclusive dialogues with mental illness sufferers. This story will leave you speechless that this author is willing to share a plight so difficult to overcome. The author conveys that after sharing this story, she is not 100 percent cured, but she is surely 100 percent better. Everyone has a different normalcy, so the expectation from one to another is inequitable in measuring ones curative healing.

Absurdity, social realism, and the in-depth examination of the human condition are but a few of the themes that comprise the contents of the seventy-three short stories breathing menacingly between the covers of this book. Humor attacks surrealism on a landscape sun-saturated with crazy stomach pains and intense clarity – creation says, "first simple act of pure effervescence getting drowned."

How to Shoot Video That Doesn’t Suck Steve Stockman 2011-06-02

Newly updated and revised, How to Shoot Video That Doesn’t Suck is a quick and easy guide that will make your video better instantly—whether you read it cover to cover or just skim a few chapters. It’s about the language of video and how to think like a director, regardless of equipment (amateurs think about the camera, pros think about communication). It’s about the rules developed over a century of movie-making—which work just as well when shooting a two-year-old’s birthday party on your phone. Written by Steve Stockman, the director of the award-winning feature Two Weeks, plus TV shows, music videos, and hundreds of commercials, How to Shoot Video That Doesn’t Suck explains in 74 short, pithy, insightful chapters how to tell a story and entertain your audience. In other words, how to shoot video people will want to watch.

Here’s how to think in shots—how to move-point-shoot-stop-repeat, instead of planting yourself in one spot and taking five minutes to move to the next shot. Fahrenheit 451 Ray Bradbury 1951 A totalitarian regime has ordered all books to be destroyed, but one of the book burners suddenly realizes their merit.

Greenlights Matthew McConaughey 2020-10-29 From the Academy Award-winning actor, an unconventional memoir filled with raucous stories, outlaw wisdom, and lessons learned the hard way about living with greater satisfaction. I’ve been in this life for fifty years, been trying to work out its riddle for forty-two, and been keeping diaries of clues to that riddle for the last thirty-five. Notes about successes and failures, joys and sorrows, things that made me marvel, and things that made me laugh out loud. How to be fair. How to have love. How to have fun. And above all, how to get hurt less. How to be a good man. How to have meaning in life. How to be more me. Recently, I worked up the courage to sit down with those diaries. I found stories I experienced, lessons I learned and forgot, poems, prayers, prescriptions, beliefs about what matters, some great photographs, and a whole bunch of bumper stickers. I found a reliable theme, an approach to living that gave me more satisfaction, at the time, and still: If you know how, and when, to deal with life’s challenges, you can go to ground with the inevitable - you can enjoy a state of success I call 'catching greenlights.' So I took a one-way ticket to the desert and wrote this book: an album, a record, a story of my life so far. This is fifty years of my sights and scenes, felts and figured-outs, cools and shamefuls. Graces, truths, and beauties of brutality. Getting away withs, getting caughts, and getting wets while trying to dance between the raindrops. Hopefully, it’s medicine that tastes good, a couple of aspirin instead of the infirmary, a spaceship to Mars without needing your pilot’s license, going to church without having to be born again, and laughing through the tears. It’s a love letter. To life. It’s also a guide to catching more greenlights-and to realising that the yellows and reds eventually turn green too. Good luck.
