Neocolonialism American Style 1960 2000

Neocolonialism American Style, 1960-2000-William H. Blanchard 1996 This is a study of American interventionism and influence over other nations in the late 20th century. The central question raised is whether the United States gains by its symbiotic relationship with authoritarian regimes, such as with Iran under the Shah, Nicaragua under Somoza, and the Philippines under Marcos. Today, while we often hear statements which imply that the U.S. has no national interest which is in conflict with the common good, the long self-searching that followed the Vietnam War should make us more aware of the complexity of American foreign policy and more skeptical of our leaders' enunciation of U.S. national interest. While presidents often make use of the notion of American foreign policy and more skeptical of our leaders' enunciation for policy (President Sush in Somalia and President Clinton in Haiti, for example), William Blanchard exposes and explores that myth and the conflicts inherent in modern American foreign policy.

Encyclopedia of Christianity in the Global South-Mark A. Lamport 2018-06-01 The rapid growth of Christianity in the global south traces both the history and the contemporary themes of Christianity in more than 150 countries and regions. It includes maps, images, and a detailed timeline of key events.

Empire's Proxy-Meg Wesling 2011-04-11 Explores the impact of colonial domination and defends Puerto Rican anti-imperialist struggles.

Decolonizing Foreign Language Education-Donaldo Macedo 2019-01-10 Decolonizing Foreign Language education approaches that prioritize white, western thought. Edited by acclaimed critical language education approaches that prioritize white, western thought. Edited by acclaimed critical language education approaches that prioritize white, western thought. Edited by acclaimed critical language education and linguage education and linguage education and the displacement of indigenous and non-standard language education and literary studies by asserting that a critical approach to applied linguistics is just as important a tool for FL/ESL/EFL educators as literature or linguistic theory.

Risk: A Study Of Its Origins, History And Politics-Matthias Beck 2014-01-13 Over a period of several centuries, the academic study of risk has evolved as a distinct body of thought, which continues to influence conceptual developments in fields such as economics, management, politics and sociology. However, few scholarly works have given a chronological account of cultural and intellectual trends relating to the understanding and analysis of risks. Risk: A Study of its Origins, History and Politics aims to fill this gap by providing a detailed study of key turning points in the evolution of society's understanding of risk. Using a wide range of primary and secondary materials, Matthias Beck and Beth Kewell map the political origins and moral reach of some of the most influential ideas associated with risk and uncertainty at specific periods of time. The historical focus of the book makes it an excellent introduction for readers who wish to go beyond specific risk management techniques and their theoretical understanding of the history and politics of risk.

Analyzing Oppression-Ann E. Cudd 2006-04-27 Analyzing Oppression presents a new, integrated theory of social oppression, which tackles the fundamental question that no theory of oppression satisfactorily answered: if there is no natural hierarchy among humans, why are some cases of oppression so persistent? Cudd argues that the explanation lies in the coercive co-opting of the oppressed to join in their oppression. This answer sets the stage for analysis throughout the book, as it explores the questions of how and why the oppressed join in their oppression is an institutionally structured harm perpetrated on social groups by other groups using direct and indirect material, economic, and psychological force. Among the most important and insidious of the indirect forces is an economic force that operates through oppressed persons' own rational choices. This force constitutes the central feature of analysis, and the book argues that this force is especially insidious because it conceals the fact of oppression from the oppressed come to believe that they suffer personal failings and this belief appears to absolve society from responsibility. While on Cudd's view oppression is grounded in material exploitation and physical deprivation, it cannot be long sustained without corresponding psychological forces. Cudd examines the direct and indirect psychological forces that generate and sustain oppression. She discusses strategies that groups have used to resist oppression and argues that all persons have a moral responsibility to resist in some way. In the concluding chapter Cudd proposes a concept of freedom for all others.

Historical Dictionary of United States-Southeast Asia Relations. Donald E. Weatherbee 2008-04-23 The Historical Dictionary of United States-Southeast Asia Relations identifies the key issues, individuals, and economic processes that have fashioned the American role in Southeast Asia. This is done through a chronology, a bibliography, an introductory essay, appendixes, and several hundred cross-referenced dictionary entries on key persons, places, events, institutions, and organizations.

Fire Beneath the Ashes-Dr. Hooshang Guilak 2011-01-07 The author painstakingly analyses the relation of the two countries. He illustrates the great achievement of those Americans who came to Iran without any government affi liation. They accomplished their goal with self sacrifi ces and devotion. Many of them gave their lives for what they believed, thus creating tremendous respect for the Americans. Vis-vis to the individuals, he points out the failure of the United States government almost, in every respect. He exemplifi es the shortcomings of most of the utmost reliance placed by the American administration to the British opinions and guidance which they followed blindly, causing irreparable damage to the integrity of the United States, not only in Iran but in the whole Middle East.

China and Her Neighbours-Michael Tai 2019-09-15 For centuries, China was confident in its role as the 'Middle Kingdom', the undisputed cultural, economic and political powerhouse of Asia. Today, with China once again a leading player on the world stage, countries across the continent are facing an uncertain future. Does China's rise threaten its neighbours? And what, ultimately, is its end goal? Nowhere are these questions more pressing than in the Pacific, where China's maritime neighbours find themselves directly in the path of the country's expanding territorial claims. In this rich historical exploration, Michael Tai finds answers to these and other questions through an in-depth exploration of China's past. Spanning thousands of years of Chinae and Malaysia. While the disputes in the Pacific have attracted widespread attention, very few investigations have considered the wider historical context of these tensions.

From Conflict to Crisis-Jeanne M. Haskin 2012 The rich understand that capitalism is a game of musical chairs. It's systemic class warfare conducted on a grand scale to discourage solidarity across lines that might otherwise threaten the system, and with each market re-set arranged by the Federal Reserve, more of the country's resources fall into wealthy hands. Examining what happens when a society favors old money over new and breaks all the rules to make the world safe for finance, author Jeanne Haskin predicts increasing volatility and violence in the United States if we do not significantly change course. For a preview of what lies ahead for the U.S., the author takes us for a quick exemplary trip through Central America. A society that is reared on competition will face unsettling challenges to authority if it doesn't set certain functions outside the arena of battle, via systematic enrichment of the affluent minority that has always had the power to topple and ruin the system. Today's preoccupation with America's revolutionary history is not just a piece of theater. At the heart of America's outrage is an inability to lash out and demand redemption from the source of its distress because the pain is inflicted, not by hatred, but by the fundamental lack of stability built into our way of life. Now that a fifth of the population is suffering job loss, foreclosures, or exclusion from employment due to prejudice, poor credit, a lack of skills or education, a glut of competition and insufficient opportunity, the failure to provide for the helpless majority means the system is at an impasse. Because the system can't—or won't—perform, the Tea Party's rise was preemptive—with all its implied violence and real America today. Ms. Haskin's richly documented essay sees a bonfire prepared as social tensions are increased and inter-group pressures are encouraged to mount. So much for One nation...

Making and Breaking Settler Space-Adam J. Barker 2021-09-15 Five hundred years. A vast geography. Making and Breaking Settler space explores how settler space explores how settler space and diversified from contact to the present. Adam Barker traces the trajectory of settler space explores how settler space explores how settler space explores how settler space and diversified from contact to the present. Adam Barker traces the trajectory of settler space explores how settler

Eisenhower's Executive Office-Alfred Dick Sander 1999 The only comprehensive examination of Eisenhower's Executive Office.

Out of Russian Orbit, Hungary Gravitates to the West-Andrew Felkay 1997 A clear exploration of Hungary's transformation from a Soviet satellite to an independent democratic country.

Germany for the Germans?-Wesley D. Chapin 1997 FROST (Copy 2): From the John Holmes Library Collection.

Roman Catholicism and Political Form-Carl Schmitt 1996 A translation of Carl Schmitt's classic explanation of the nature and historical/sociological significance of political Catholicism.

International Theory-Andrew P. Dunne 1996 This pathmaking treatise on macrotheoretical science argues that a brink separates an explanatory theory of international politics from those approaches that lack basic standards for theoretical construction--a brink which must be bridged if the discipline is to develop. Formulated on the basis of a pragmatic philosophy of science, its most general arguments cross the boundaries of the social sciences, including the standard subdisciplinary boundaries of international relations. Although the substantive theories in the book tend to be about systems usually characterized as power politics, the basic approach and categories could be used to analyze systems of international political economy, international organization, or comparative politics.

Islamophobia-Stephen Sheehi 2010-12-03 Islamophobia: The Ideological Campaign Against Muslims examines the rise of anti-Muslim and anti-Arab sentiments in the West following the end of the Cold War through GW Bush's War on Terror to the Age of Obama. Using "Operation Desert Storm" as a watershed moment, Stephen Sheehi examines the increased mainstreaming of Muslim-bating rhetoric and explicitly racist legislation, police surveillance, witch-trials and discriminatory policies towards Muslims in North America and abroad. The book focuses on the various genres and modalities of Islamophobia from the works of rogue academics to the commentary by mainstream journalists, to campaigns by political hacks and special interest groups. Some featured Islamophobes are Bernard Lewis. Fareed Zakaria, Thomas Friedman, David Horowitz, Ayaan Hirsi Ali, Irshad Manji, George W. Bush, Dick Cheney, John McCain, Hilary Clinton and Barack Obama. Their theories and opinions operate on an assumption that Muslims, particularly Arab Muslims, suffer from particular cultural lacuna that prevent their cultures from progress, democracy and human rights. While the assertion originated in the colonial era, Sheehi demonstrates that it was refurbished as a viable explanation for Muslim resistance to economic and cultural globalization during the Clinton era. Moreover, the theory was honed into the empirical basis for an interventionist foreign policy and propaganda campaign during the Bush regime and continues to underlie Barack Obama's new internationalism. If the assertions of media pundits and rogue academics became the basis for White House foreign policy, Sheehi also demonstrates how they were translated into a sustained domestic policy of racial profiling and Muslim-baiting by agencies from Homeland Security to the Department of Justice. Furthermore, Sheehi examines the collusion between non-governmental agencies, activist groups and lobbies and local, state and federal agencies to in suppressing political speech on US foreign policy in the

Forthcoming Books-Rose Arny 2001

International Relations-Eric Shiraev 2015-10-02 Using a three-part framework of Ideas, Arguments, and Contexts and Applications, International Relations, Second Edition, shows students how to think critically about issues and developments in the field (Ideas), then presents the main theoretical and analytical approaches (Arguments), and finally applies the main theories and approaches within the individual, state, and global contexts (Contexts and Applications). Historical information is woven throughout the text, and every chapter ends with an extended case study ("The Uses of History") that demonstrates how what we have learned from the past can influence our future actions. Three full chapters on key approaches-realism (chapter 2), liberalism (chapter 3), and constructivism and other alternative views (chapter not only recap key points but include Critical Thinking questions that reflect the chapter learning objectives.

Ideas of Social Order in the Ancient World-Vilho Harle 1998 A comparison of seven major civilizations through their fundamental social, political, religious, and literary texts.

Democratization in Late Twentieth-century Africa-Jean-Germain Gros 1998 African and non-African scholars take a critical look at the evolution and contradictions of democratization in Malawi, Cameroon, Nigeria, Ethiopia, Tanzania, Ghana, and Gabon.

To Sheathe the Sword-John P. Lovell 1997 This important new volume, sponsored by the Indiana Center on Global Change and World Peace, brings together academicians and practitioners in comparative politics and international relations to examine the impact of civil-military relations on the process of democratization. Contributors take an unprecedented look at current and emerging patterns of linkages between civil-military relations and democratization and democratization in the path of democratization of the traditional Western model of civil-military relations. These include the notion that democratization requires adoption of the traditional Western model of civil-military relations.

The British National Bibliography-Arthur James Wells 1996

Government Structures in the U.S.A. and the Sovereign States of the Former U.S.S.R.-James E. Hickey 1996 A comprehensive look at the opportunities and obstacles presented by government structures in both countries.

Voting Rights and Redistricting in the United States-Mark E. Rush 1998 This up-to-date collection of essays addresses key elements of the law and politics of voting rights: the Supreme Court's jurisprudence, the impact of the Voting Rights Act, and the opportunities for enhanced minority representation posed by alternative electoral systems. This volume, comprised of contributions by leading legal and political science practitioners in the field of voting rights, will be a valuable resource to experienced research on the various minority groups it purports to assist, and critical analysis of the use of alternative electoral systems.

Whitaker's Books in Print- 1998

Washingtons Söldner-Klaas Voß 2014-03-12 In den letzten Jahren fand eine stetige Privatisierung von Kriegen statt, nicht zuletzt durch den Einsatz von "Söldner erst mit dem Aufstieg der großen Militärdienstleister nach dem Ende des Kalten Krieges wieder zu einem wichtigen Konfliktakteur wurden. Tatsächlich fanden sie in der Konfrontation der Supermächte mit ihren verdeckten Operationen und Stellvertreterkriegen eine ideale Basis. Während man in Washington glaubte, dass Söldner risikofreie Interventionen in der "Dritten Welt" ermöglichten, brachte ihr Einsatz zugleich eine erhebliche politisch-moralische Hypothek mit sich und bot eine perfekte Angriffsfläche für kommunistische Propaganda. Weit verbreitete Annahmen zu Geheimdiensten, verdeckten Operationen und dem Management öffentlicher Meinung werden in diesem Buch hinterfragt: Der Einsatz von Söldnern verweist darauf, dass echte Geheimhaltung weitaus weniger wichtig war, als die Möglichkeit für die amtierende US-Administration, zumindest formal die Verantwortung für die inoffiziellen Kriege im Ausland abstreiten zu können. Klaas Voß erzählt die wenig beachtete Vorgeschichte der aktuellen Rückkehr des Söldnertums und erinnert an die Schlachtfelder halb vergessener Konflikte des Kalten Krieges im Kongo, in Angola, Rhodesien und Nicaragua.

Nature, Neo-colonialism, and the Spanish American Regional Writers-Jennifer French 2005 A searching, interdisciplinary, critical consideration of the cultural, economic, and environmental ramifications of Britain's informal imperialism in South America
